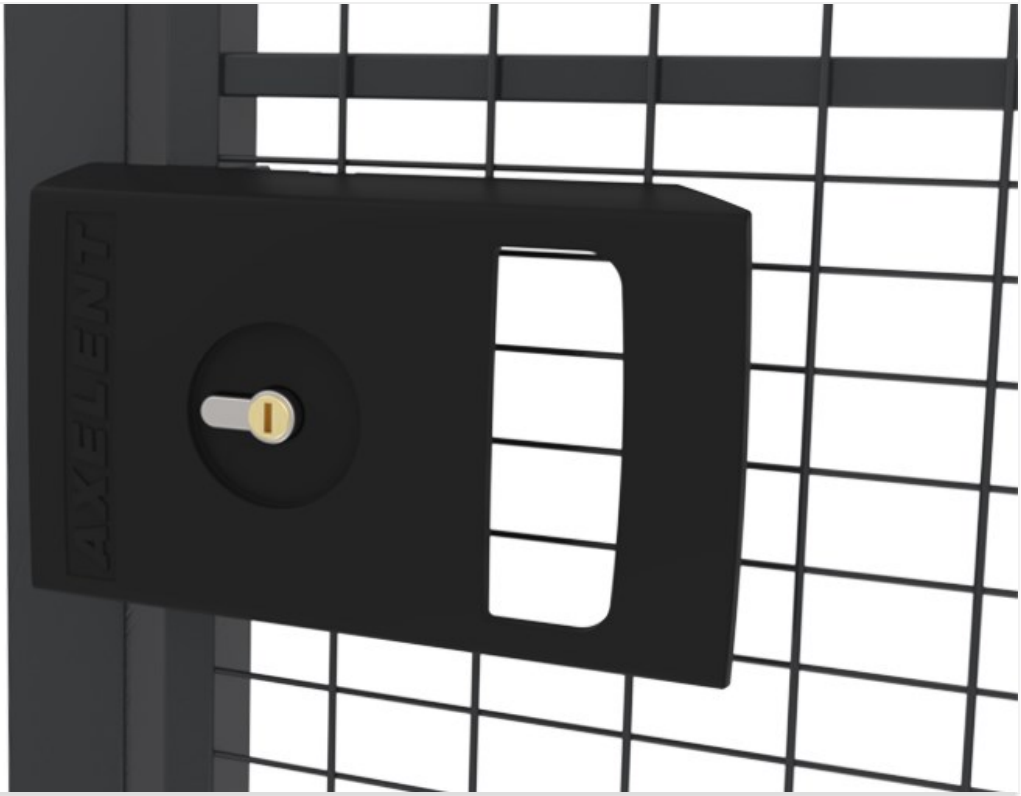
Serrure à cylindre X-It

X-It est une serrure à cylindre à clé conçue principalement pour tous nos systèmes de panneaux grillagés modulaires pour la protection machines et l'industrie/entrepôt. Grâce à sa construction unique et à son assemblage simple, la serrure peut également être utilisée pour des produits/systèmes tiers similaires disponibles sur le marché.



La serrure, d'une conception unique ne nécessite aucun boîtier de serrure supplémentaire, il suffit d'ajouter un cylindre standard. La serrure est robuste avec un couvercle en métal pour résister aux conditions difficiles, et est testée et approuvée selon la norme SS-EN 12209:2016. X-It s'adapte aussi bien aux portes battantes qu'aux portes coulissantes.

La serrure peut également être combinée avec une unité mécanique anti-panique / d'urgence. Le produit fait l'objet d'un dépôt de brevet.
